

Using Waiting Times Sensibly and Agreeably...

The Electronic Ticket for MEM-O-MATIC Systems

The freedom of not having to wait – or more precisely, "pulling" an electronic waiting ticket without having to go, first, to the place of the appointment. The cleverQ app can show you how many people are already waiting and how long you yourself will probably still have to wait.

The cleverQ app informs you in good time – by "push" notice – so that you can easily keep your appointment without having to sit around in the waiting room, or stand in the queue.

Available MEM-O-MATIC systems with ticket printers can readily be equipped with the cleverQ Box, without the need for any exchange of hardware or software.
