

Modern Ticket Printers for Every Environment...

SWING Ticket Issue

Product Description: SWING Standing Device

Ticket printer in a standing housing with weighted foot-plate.

Laminate on a 38 mm substrate, HPS plastic coating with a wide variety of colours.

Easy exchange of paper thanks to folding out of the entire printer mechanism; a flap with a lock.

Thermal print unit for ticket issues for up to four working groups.

15-inch touch screen incl. control. Displays can be presented in several languages.

Safe extraction of the tickets thanks to a guide system.

Notification of all table-top devices in the working group, when another visitor is waiting.

Display of function reports – such as "no paper" – sent to all table-top devices (optically and acoustically).

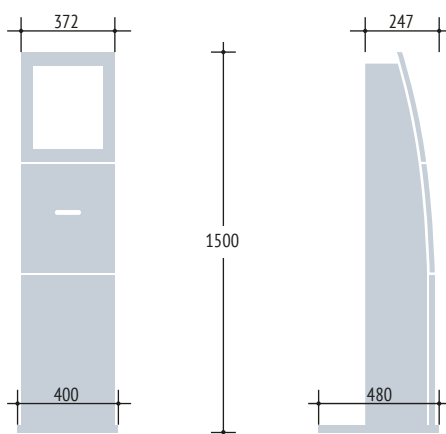

All groups have their own text. Apart from the identifying letters with consecutive numbering, the date, the time, the number of the visitors waiting and an information text can also be printed out.

The texts can be re-worked using a PC program.

The issue of double tickets is also possible.
